Target Companies Global Investment Signals Monitor

30 Major Investment-Attraction Projects (MOTIE) · 77 Target Companies

Five investment signals per company · Pre-confirmation indicators only

FIVE LEADING SIGNAL INDICATORS

- | | | |
|---|---|--|
| ① | Supply Chain & Geopolitical Risk | Dependence reduction, diversification, regulatory risk, etc. |
| ② | Production Expansion & Diversification | APAC expansion reviews, site feasibility studies, etc. |
| ③ | Capital Securing & Financing | Large bond issues, equity raises, credit lines, etc. |
| ④ | Tech Ecosystem Engagement (R&D) | Joint research, licensing, PoC matching, equity, etc. |
| ⑤ | Strategic Executive Move | C-level moves, quiet visits, due-diligence signs, etc. |

This Month's Signal Matrix

Investment signals (pre-confirmation) across the 77 target companies for July 2026 (1–31 Jul). A highlighted cell marks a signal detected during the month; lagging data such as completed deals are excluded.

Company Signal Details

Air Products

Industrial Gases

USA

1

Supply Chain & Geopolitical Risk · Risk events & mitigation moves, etc.

Stronger Taiwan semiconductor gas supply-chain resilience — New underground pipelines will be tied into the existing Taiwan network to raise reliability, operating efficiency and resilience — an integrated expansion serving new front-end fabs and back-end packaging together.

Source · Air Products and Chemicals, Inc. press release, 2026.07.21

2

Production Expansion & Diversification · Expansion reviews, feasibility studies, etc.

Four new ASUs, bulk gas and underground pipelines in Taiwan — Air Products San Fu will build, own and operate four large air separation units, a bulk-gas supply system and new underground pipelines, expanding its Taiwan manufacturing network.

Source · Air Products and Chemicals, Inc. press release, 2026.07.21

3

Capital Securing & Financing · Bonds, equity, credit lines, fund-raising, etc.

No signal this month —

4

Tech Ecosystem Engagement (R&D) · Joint research, licensing, PoC, equity moves, etc.

No signal this month —

5

Strategic Executive Move · C-level moves, quiet visits & due diligence

No signal this month —

GLOBAL BUSINESS STATUS

On July 21 Air Products announced a long-term supply contract serving several new fabs and a back-end packaging site of a Taiwanese chipmaker. It will build, own and operate four ASUs plus bulk-gas and underground pipeline assets and link them to the existing network, strengthening supply stability and resilience.

Company Signal Details

Amkor Technology

Semiconductor Packaging USA

1

Supply Chain & Geopolitical Risk · Risk events & mitigation moves, etc.

Stronger US advanced-packaging supply-chain resilience — Pursuing turnkey advanced-packaging and test capability in the US with NVIDIA. Arizona capacity will be combined with existing Asian sites to build a geographically diversified global supply chain.

Source · Amkor Technology, Inc. press release, 2026.07.23

2

Production Expansion & Diversification · Expansion reviews, feasibility studies, etc.

Arizona advanced-packaging capacity expansion — US advanced-packaging capacity will be expanded on the basis of a capacity agreement and prepayment from NVIDIA.

Source · Amkor Technology, Inc. press release, 2026.07.23, Amkor Technology, Inc. quarterly results, 2026.07.27

3

Capital Securing & Financing · Bonds, equity, credit lines, fund-raising, etc.

Funding secured via NVIDIA prepayment (USD 1.5bn development contract) — NVIDIA is providing a prepayment to support US capacity expansion. A multi-year advanced-packaging and development contract worth USD 1.5bn in total was signed.

Source · Amkor Technology, Inc. press release, 2026.07.23, Amkor Technology, Inc. quarterly results, 2026.07.27

4

Tech Ecosystem Engagement (R&D) · Joint research, licensing, PoC, equity moves, etc.

Joint next-generation packaging roadmap with NVIDIA — Co-developing advanced packaging and test technology for next-gen AI computing, with aligned long-term roadmaps for high-density interconnect and heterogeneous integration.

Source · Amkor Technology, Inc. press release, 2026.07.23

5

Strategic Executive Move · C-level moves, quiet visits & due diligence

No signal this month —

GLOBAL BUSINESS STATUS

On July 23 Amkor Technology announced a multi-year, USD 1.5bn advanced-packaging and development partnership with NVIDIA, advancing US supply-chain resilience, Arizona capacity, prepayment-based funding and joint next-generation packaging development at once.

Source · Amkor Technology, Inc. press release, 2026.07.23, Amkor Technology, Inc. quarterly results, 2026.07.27

3M

Diversified Industrials & Materials

USA

1

Supply Chain & Geopolitical Risk · Risk events & mitigation moves, etc.

No signal this month —

2

Production Expansion & Diversification · Expansion reviews, feasibility studies, etc.

No signal this month —

3

Capital Securing & Financing · Bonds, equity, credit lines, fund-raising, etc.

Madison deal closed and USD 1.43bn acquisition loan drawn — 3M and Bain Capital completed the USD 1.95bn acquisition of Madison Fire & Rescue on July 1. 3M drew a USD 1.43bn term loan during July.

Source · 3M Company press release, 2026.07.21

4

Tech Ecosystem Engagement (R&D) · Joint research, licensing, PoC, equity moves, etc.

Wider EBO and AI technology partnership with Microsoft — Microsoft is adopting 3M EBO technology in Azure data centers. The two firms will continue engineer-level collaboration and announced co-development of an internal AI agent workflow for 3M.

Source · 3M Company / Microsoft, press release, 2026.07.15

5

Strategic Executive Move · C-level moves, quiet visits & due diligence

No signal this month —

GLOBAL BUSINESS STATUS

In July 3M widened its work with Microsoft on data-center optical interconnect and enterprise AI, formalizing production scale-up of EBO technology and joint technical work. Separately it closed the Madison Fire & Rescue acquisition on July 1 and disclosed in its 10-Q that a USD 1.43bn term loan drawn in July funded the deal.

Ouster

Lidar for robotics USA

- 1

Supply Chain & Geopolitical Risk · Risk events & mitigation moves, etc.

No signal this month —
- 2

Production Expansion & Diversification · Expansion reviews, feasibility studies, etc.

No signal this month —
- 3

Capital Securing & Financing · Bonds, equity, credit lines, fund-raising, etc.

About USD 200m raised in a common stock offering — Priced a common stock offering on July 2, 2026. Proceeds are earmarked for working capital and general corporate purposes.

Source · Ouster press release 2026.07.02
- 4

Tech Ecosystem Engagement (R&D) · Joint research, licensing, PoC, equity moves, etc.

No signal this month —
- 5

Strategic Executive Move · C-level moves, quiet visits & due diligence

No signal this month —

GLOBAL BUSINESS STATUS

 Target item

High-performance lidar sensors

Ouster's core business is digital lidar, and in July it reinforced growth funding through a large common stock offering. Use of proceeds is not tied to a specific plant, but with robotics and autonomous-driving lidar as its flagship products the link to the target item is clear.

Source · Ouster press release 2026.07.02

Tech Ecosystem Engagement (R&D) · Joint research, licensing, PoC, equity moves, etc.

No signal this month —
- 5

Strategic Executive Move · C-level moves, quiet visits & due diligence

Board reshuffle aligned with electric-propulsion and energy expansion — Alongside a strategy to widen the markets for its aviation battery and motor technology, Neil Perry was named Executive Chairman and Sean Gardiner Executive Director.

Source · Emerald Media report 2026.07.09

GLOBAL BUSINESS STATUS

Target tech

Aviation electric propulsion motors & high-power battery modules

On July 9, 2026 magniX announced a new strategic direction extending its aviation battery, inverter, power-distribution and motor/generator technology into data centers, defense, mobility and space, and changed its board leadership to support that strategy.

Source · Emerald Media report 2026.07.09

Company Signal Details

Prodrive

Advanced Electronics · Mechatronics OEM Netherlands

1 Supply Chain & Geopolitical Risk · Risk events & mitigation moves, etc. No signal this month —

2 Production Expansion & Diversification · Expansion reviews, feasibility studies, etc.

Formal transfer of ownership of a new Malaysian plant — Formally took ownership of a new Malaysian manufacturing site on July 23, 2026. Preparations for production have begun, confirming a concrete site shift that widens the Southeast Asian manufacturing network.

Source · Prodrive Technologies. official LinkedIn, 2026.07.23

3 Capital Securing & Financing · Bonds, equity, credit lines, fund-raising, etc. No signal this month —

4 Tech Ecosystem Engagement (R&D) · Joint research, licensing, PoC, equity moves, etc. No signal this month —

5 Strategic Executive Move · C-level moves, quiet visits & due diligence No signal this month —

GLOBAL BUSINESS STATUS

On July 23 Prodrive Technologies took ownership of a new manufacturing site in Malaysia and began preparing for production. The official post frames this as a milestone in continued investment in Southeast Asia. No formal press release of the same date appears on the company website; it was posted only on its official LinkedIn.

Source · Prodrive Technologies. official LinkedIn, 2026.07.23

Company Signal Details

ASML

Semiconductor lithography Netherlands

1 Supply Chain & Geopolitical Risk · Risk events & mitigation moves, etc. No signal this month —

2 Production Expansion & Diversification · Expansion reviews, feasibility studies, etc.

Phased lithography capacity expansion over the next two years — Low-NA EUV output is to rise about 30% in 2027 with further expansion thereafter, and DUV tool production will also be increased.

Source · Reuters report "ASML capacity upgrade soothes AI chip bottleneck fears", 2026.07.15

3 Capital Securing & Financing · Bonds, equity, credit lines, fund-raising, etc. No signal this month —

4 Tech Ecosystem Engagement (R&D) · Joint research, licensing, PoC, equity moves, etc.

Intel adopts ASML High-NA EUV in volume on selected layers — Intel and ASML are matching yields to the existing NXE platform and jointly maturing tool data and production readiness for future process adoption.

Source · ASML Netherlands B.V. press release, 2026.07.15

5 Strategic Executive Move · C-level moves, quiet visits & due diligence No signal this month —

GLOBAL BUSINESS STATUS Target item EUV lithography systems

ASML set out plans to expand EUV and DUV lithography supply capacity in response to growing AI infrastructure investment. High-NA EUV also entered volume use on selected layers of Intel's Panther Lake, advancing validation and optimization of the next-generation tool inside a customer process.

Company Signal Details

Rio Tinto

Critical minerals & lithium UK

1 Supply Chain & Geopolitical Risk · Risk events & mitigation moves, etc. No signal this month —

2 Production Expansion & Diversification · Expansion reviews, feasibility studies, etc.

Lithium (LCE) production expansion — Lithium output expanded through the Rincon starter plant ramp-up and earlier-than-planned first production at Sal de Vida and Fénix 1B. Q2 2026 LCE output rose 20% year on year and first-half output rose 53%.

Source · Rio Tinto press release, 2026.07.15

3 Capital Securing & Financing · Bonds, equity, credit lines, fund-raising, etc. No signal this month —

4 Tech Ecosystem Engagement (R&D) · Joint research, licensing, PoC, equity moves, etc. No signal this month —

5 Strategic Executive Move · C-level moves, quiet visits & due diligence No signal this month —

GLOBAL BUSINESS STATUS Target item Lithium hydroxide and carbonate for cathode materials

Rio Tinto expanded its lithium production base through the ramp-up of the Rincon starter plant and early first production at Sal de Vida and Fénix 1B. Second-quarter LCE output rose 20% year on year and first-half output was up 53%.

Source · Rio Tinto press release, 2026.07.15

Company Signal Details

HyproMag

Rare-earth magnet recycling UK

1

Supply Chain & Geopolitical Risk · Risk events & mitigation moves, etc.

Faster supply-chain localization via early US magnet finishing — A phased development strategy starts NdFeB magnet cutting and finishing in H1 2027, ahead of integrated Texas Hub operation. Initially magnet blocks supplied from the UK and Germany will be processed and finished in the US for local customers.

Source · Mkango Resources Ltd. press release, 2026.07.27

2

Production Expansion & Diversification · Expansion reviews, feasibility studies, etc.

Phased production plan set out — A phased plan starts magnet cutting and finishing at the Texas Hub early in H1 2027, with HPMS and the integrated magnet plant from Q2 2028. Initial recycled sintered NdFeB capacity is about 400 tonnes a year, to be expanded in stages.

Source · Mkango Resources Ltd. press release, 2026.07.27

3

Capital Securing & Financing · Bonds, equity, credit lines, fund-raising, etc.

No signal this month —

4

Tech Ecosystem Engagement (R&D) · Joint research, licensing, PoC, equity moves, etc.

No signal this month —

5

Strategic Executive Move · C-level moves, quiet visits & due diligence

No signal this month —

GLOBAL BUSINESS STATUS

Rare-earth recovery & recycled NdFeB magnet manufacturing

HyProMag USA set out a phased strategy in which magnet finishing at the Texas Hub starts ahead of the integrated HPMS line, bringing forward qualification and initial sales to US customers. It then plans an integrated chain that recovers US scrap magnets via HPMS and makes and finishes recycled NdFeB magnets.

4 Tech Ecosystem Engagement (R&D) · Joint research, licensing, PoC, equity moves, etc.

Fuel-cell engine JV and entry into hybrid-electric integration testing — Announced plans for a joint venture with MTU Aero Engines to develop and commercialize a fully electric hydrogen fuel-cell engine. Through LEIA it is also running aircraft-level integration tests of battery interfaces and energy management.

Source · Airbus press release 2026.07.07, Airbus press release 2026.07.22

5 Strategic Executive Move · C-level moves, quiet visits & due diligence No signal this month —

GLOBAL BUSINESS STATUS

Electric propulsion motors for advanced air mobility

Airbus moved to set up a dedicated joint venture with MTU to develop and commercialize a fully electric hydrogen fuel-cell aero engine. Through LEIA it also widened aircraft-level validation of motors and generators, high-voltage distribution, power electronics, battery interfaces and energy management.

Source · Airbus press release 2026.07.07, Airbus press release 2026.07.22

Company Signal Details

Safran

Aero engines & electric propulsion France

1 Supply Chain & Geopolitical Risk · Risk events & mitigation moves, etc. No signal this month —

2 Production Expansion & Diversification · Expansion reviews, feasibility studies, etc. No signal this month —

3 Capital Securing & Financing · Bonds, equity, credit lines, fund-raising, etc. No signal this month —

4 Tech Ecosystem Engagement (R&D) · Joint research, licensing, PoC, equity moves, etc.

Wider partnerships to commercialize hybrid and hydrogen-electric propulsion — Signed a TG600 turbogenerator development and production contract with Electra, securing an initial 250-unit order. PHILEAS demonstration testing and work with ZeroAvia and Aura Aero broaden testing and integration of electric and hydrogen propulsion.

Source · Safran press release 2026.07.15., Safran press release 2026.07.17.

5 Strategic Executive Move · C-level moves, quiet visits & due diligence No signal this month —

GLOBAL BUSINESS STATUS

Electric propulsion motors for advanced air mobility

During July Safran expanded development, demonstration and customer programs in hybrid-electric and hydrogen-electric propulsion at the same time. The TG600 turbogenerator entered the development and integration phase for the Electra EL9 and Aura Aero ERA, and full-scale testing of electrical machines and power electronics began through PHILEAS.

Company Signal Details

Air Liquide

Industrial Gases

France

1

Supply Chain & Geopolitical Risk · Risk events & mitigation moves, etc.

Stronger local semiconductor supply and security in the US and China — The Arizona investment explicitly supports the domestic US supply chain for AI technology. In Indiana, production next to customer lines strengthens supply stability. In China, supply infrastructure is being expanded directly at major semiconductor clusters.

Source · Air Liquide. press release, 2026.07.01

2

Production Expansion & Diversification · Expansion reviews, feasibility studies, etc.

New and expanded industrial gas plants across five US and China regions — Successive projects cover two new production units in Indiana, four new nitrogen units in China, a Texas POX facility, a large Arizona site and a new industrial gas plant in Idaho.

Source · Air Liquide. press release, 2026.07.16

3

5

Strategic Executive Move · C-level moves, quiet visits & due diligence

No signal this month —

GLOBAL BUSINESS STATUS

Through July Air Liquide announced a run of production and supply-infrastructure investments in Indiana, Texas, Arizona and Idaho in the US and in major Chinese semiconductor clusters. US projects alone account for at least USD 680m of new investment, with more than CNY 800m announced in China.

Source · Air Liquide. press release, 2026.07.01, Air Liquide. press release, 2026.07.16

Item-Linked Global Business Trends

Companies without a five-signal profile this month, but where a global business trend directly linked to a target item/tech was detected in July — monitored for potential signal development.

Besi

Netherlands

Target item/tech nm-class W2W hybrid bonding equipment

July global business trend Growing hybrid bonding demand and wider customer adoption — In Q2 results on July 23 the company said demand for advanced packaging equipment, led by hybrid bonding, had grown, and that rising demand from data centers, photonics and AI computing drove order growth.

Source · BE Semiconductor Industries N.V. press release, 2026.07.23

SCHOTT Pharma

Germany

Target item/tech PFS & autoinjector filling and manufacturing technology

July global business trend Commercial agreement reached with a key PFS glass syringe customer — On July 8 SCHOTT Pharma formally disclosed that it had reached an agreement (Einigung) with an important glass syringe customer, and said it includes revenue and compensation elements affecting future periods.

Source · SCHOTT Pharma AG & Co. KGaA press release, 2026.07.08

Boeing

USA

Target item/tech Aviation electric motors & high-power battery modules

July global business trend Public flight demonstration of a megawatt-class hybrid-electric system — A megawatt-class hybrid-electric propulsion system developed with NASA, GE Aerospace, BETA Technologies and Boeing was fitted to a Saab 340B and flown publicly at the Farnborough International Airshow in July.

Source · NASA press release, 2026.07.20
