Five investment trend indicators

- | | | |
|---|---|--|
| 1 | Supply chain & geopolitical risk | Supply chain shifts and risk responses |
| 2 | Production expansion & diversification | Capacity additions, site diversification |
| 3 | Investment financing secured | Bonds, equity raises, credit facilities |
| 4 | Technology ecosystem & R&D | Joint research, licensing, PoC, equity |
| 5 | Movement of key personnel | C-level moves, visits, due diligence |

Signal Matrix of the Month

Global investment signals (leading indicators) across 77 target companies for August (2026.8.1~8.31). A filled cell marks a signal captured during the month; final investment commitments are excluded; financing and R&D precursors are included.

Company	①	②	③	④	⑤

GLOBAL BUSINESS

 Target technology

virus validation and MCB/WCB characterization

Charles River is collaborating with Medigen Vaccine Biologics to characterize and validate the virus seed bank for MVC's next-generation multivalent enterovirus vaccine. The company leverages advanced analytical platforms, including Next-Generation Sequencing (NGS), to support CMC activities and non-clinical studies.

GLOBAL BUSINESS

Applied Materials announced the 'VeritySEM 20', a next-generation CD-SEM metrology system designed to extend patterning control into the High-NA EUV era. The system features a wider landing energy range and integrated chamber-cleaning capabilities to enable contamination-free metrology of ultra-thin resists.

GLOBAL BUSINESS

Target technology

rare earth extraction from end-of-life permanent magnets

Mkango completed the acquisition of Remloy's rare earth magnet recycling business in Bitterfeld, Germany, securing NdFeB alloy powder production facilities. This process complements HyProMag's short loop and Mkango UK's long loop recycling processes. Through this, the company is further strengthening the rare earth supply chain and recycling ecosystem across Europe and North America.

Global Business Trends by Item

Companies with no signal among the five indicators this month, but with global business activity in August directly tied to their target item or technology. Monitored for potential escalation into a signal.

Australian Strategic Metals

Rare-earth magnet recycling

Australia

Target item / technology **rare earth extraction from end-of-life permanent magnets**

Global business trend, August

Energy Fuels completed its 100% acquisition of ASM through a scheme of arrangement. ASM was removed from the official list of the ASX following the implementation of the scheme. The combination of Energy Fuels and ASM represents a major step forward in developing a secure, diversified rare earth platform.

Moderna

Cell & gene therapy

USA

Target item / technology **gene/cell therapy delivery vector and GMP raw material**

Global business trend, August

Moderna announced that its Merck-partnered mRNA cancer vaccine met its Phase 3 trial goals. The positive clinical results significantly boosted market confidence and the company's stock price.

Albemarle

Battery cathode materials

USA

Target item / technology **cathode material lithium hydroxide/carbonate**

Global business trend, August

Albemarle reported strong business performance in its Energy Storage segment for the second quarter of 2026, driven by higher pricing and increased sales volume. - Energy Storage net sales reached \$1.3 billion with sales volume of 65 kilotons of LCE in Q2 2026.

Global Business Trends by Item

Ouster

Robotics LiDAR

USA

Target item / technology **robot LiDAR**

Global business trend, August

Ouster's next-generation REV8 digital lidar sensors are planned to be integrated into the autonomous machinery fleet of GUSS Automation, a John Deere subsidiary. - This integration enhances the precision, safety, and obstacle detection capabilities of autonomous orchard sprayers operating in complex agricultural environments.

Source Official press release · Ouster - News Releases / Press Releases 2026.08.26

Nexeon

Battery anode materials

UK

Target item / technology **silicon anode material technology**

Global business trend, August

Nexeon is actively conducting business operations based on its cutting-edge silicon anode materials for lithium-ion batteries, including bringing online the world's first volume production facility for silicon-carbon materials in Gunsan, South Korea.
